TBN Securities, Inc.

Report Pursuant to Rule 17a-5 (d)

Financial Statements

For the Year Ended June 30, 2008

Independent Auditor's Report

Board of Directors TBN Securities, Inc.:

We have audited the accompanying statement of financial condition of TBN Securities, Inc. (the Company) as of June 30, 2008, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TBN Securities, Inc. as of June 30, 2008, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 6 to the financial statements, the Company has been considering closing the business, which raises substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

TBN Securities, Inc. (the "Company") was incorporated in California in December of 1999, and began operations in 2000. The Company is a registered broker/dealer in securities under the Securities and Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority ("FINRA") where it does business as ("d.b.a") Save252 Financial, Inc.. The Company operates on a fully-disclosed basis whereby it does not hold customer accounts or securities.

The Company is in the business of selling variable insurance policies to customers, and caters largely to the estate planning market. The Company does business nationwide with its main office in Camarillo, California. All of the Company's revenue comes from a small client base.

Summary of Significant Accounting Policies

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

For purposes relating to the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. The Company also includes money market accounts as cash equivalents.

Accounts receivable are stated at face amount with no allowance for doubtful accounts. An allowance for doubtful accounts is not considered necessary because probable uncollectible accounts are immaterial.

The Company recognizes its commission fee income when earned.

The Company accounts for its income taxes using the Financial Accounting Standards Board Statement of Financial Accounting Standards No. 109, "Accounting for income taxes", which requires the establishment of a deferred tax asset or liability for the recognition of the future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expenses or benefits are recognized as a result of the changes in the assets and liabilities during the year.

Note 2: RELATED PARTY TRANSACTIONS

The Company has an expense sharing agreement with an entity affiliated through common ownership whereby the affiliated Company provides certain expenses, including office expense, administrative support, and telephone expense. During the year ended June 30, 2008, the Company incurred \$2,400,under this agreement.

Note 3: OTHER INCOME

During the year ended June 30, 2008, every broker/dealer in good standing received a \$35,000 rebate from FINRA. This rebate is included in other income on the Company's Statement of Income.

Note 4: **INCOME TAXES**

The components of the income tax provision are as follows:

| | | Total_ |
|--------------------------|----|--------|
| State tax expense | \$ | 1,100 |
| Federal tax expense | _ | 351 |
| Total income tax expense | \$ | 1,451 |

The Company has available at June 30, 2008, unused Federal net operating losses, which may be applied against future taxable income or carried back to offset previous taxable income, resulting in a deferred tax asset of approximately \$120. The net operating loss begins to expire in the year 2028.

A 100% valuation allowance has been established against this benefit since management cannot determine if it is more likely than not that the asset will be realized.

Note 5: CONCENTRATIONS OF CREDIT RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker/dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Note 6: COMMITMENTS AND CONTINGENCIES

Going Concern

The Company had little revenue during year ended June 30, 2008, primarily due a change in its market, which is no longer requesting variable life insurance policies. The sole shareholder feels that the nuances of continuing the Company far outweigh the benefits and is exploring options of either selling the Company or shutting it down. No formal decisions have been made, and the Company continues to operate on its own capitalization, therefore these financials have been prepared as if the Company will continue as a going concern.

Note 7: RECENTLY ISSUED ACCOUNTING STANDARDS

Accounting for Certain Hybrid Financial Instruments

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155 ("SFAS 155"), "Accounting for Certain Hybrid Financial Instruments, an amendment of FASB statements No. 133 and 140." The statement allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) as long as the entire instrument is valued on a fair value basis. SFAS 155 also resolves and clarifies other specific issues contained in SFAS 133 and 140. The statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after December 15, 2006. The adoption of SFAS 155 has not had a material impact upon the Company's financial statements.

Accounting for Uncertainty in Income Taxes

In June 2006 the FASB issued Financial Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109." which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that the Company recognize in its financial statements the impact of a tax position if it is more likely than not that such position will be sustained on audit based on its technical merits. This interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The effective date of the provisions of FIN 48 for all nonpublic companies has been postponed to fiscal years beginning after December 15, 2007. The Company is currently evaluating the impact of this statement, but does not expect that it will have a material impact upon the Company's financial statements.

Note 7: <u>RECENTLY ISSUED ACCOUNTING STANDARDS</u> (Continued)

Fair Value Measurements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 ("SFAS 157"), "Fair Value Measurements". The statement defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those pronouncements that fair value is a relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of this statement, but does not expect the pronouncement will have a material impact upon the Company's financial statements.

Retirement Plans

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements Nos. 87, 106, and 132(R)" ("SFAS 158"). SFAS 158 requires companies to recognize on a prospective basis the funded status of their defined benefit pension and postretirement plans as an asset or liability and to recognize changes in that funded status in the year in which the changes occur as a component of other comprehensive income, net of tax. The effective date of the pronouncement is a function of whether the Company's equity securities are traded publicly. If the entity has publicly traded securities, the effective date is for fiscal years ending after December 15, 2006. Entities without publicly traded securities must adopt the standard for fiscal years ending after June 15, 2007. Adoption of the new standard has not had a material effect on the Company's financial statements.

Fair Value Option

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 ("SFAS 159"), "Fair Value Option for Financial Assets and Financial Liabilities-including an amendment of FASB Statement No. 115". SFAS 159 is expected to expand the use of fair value accounting but does not affect existing standards which require certain assets or liabilities to be carried at fair value. The objective of this pronouncement is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. Under SFAS 159, a company may choose at specified election dates, to measure eligible items at fair value and report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS 159 is effective for financial statements issued

Note 7: <u>RECENTLY ISSUED ACCOUNTING STANDARDS</u> (Continued)

for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of this statement, but does not expect that it will have a material impact upon the Company's financial statements.

Note 8: NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC rule 15c3-1), which requires both the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Net capital and aggregate indebtedness change day to day, but on June 30, 2008, the Company's net capital of \$37,717 exceeded the minimum net capital requirement by \$32,717; and the Company's ratio of aggregate indebtedness (\$2,111) to net capital was 0.06:1, which is less than the 15 to 1 maximum ratio allowed.

Note 9: RECONCILIATION OF AUDITED NET CAPITAL TO UNAUDITED FOCUS

There was a \$1,611 difference between the computation of net capital under net capital SEC Rule 15c3-1 and the corresponding unaudited Focus part IIA.

| Net capital per unaudited schedule | | \$ 39,328 |
|------------------------------------|------------|--------------|
| Adjustments: | | |
| Retained earnings | \$ (1,611) | |

| Less: Haircuts and undue concentration | | | | |
| Net capital | | | | 37,717 |
| Computation of net capital requirements Minimum net capital requirements 6 2/3 percent of net aggregate indebtedness Minimum dollar net capital required | \$ \$ | 141 5,000 | | |
| Net capital required (greater of above) | | | | 5,000 |
| Excess (deficient) net capital | | | <u>\$</u> | 32,717 |
| Ratio of aggregate indebtedness to net capital | | 0.06:1 | | |

There was a \$1,611 difference between net capital shown here and net capital as reported on the Company's unaudited Form X-17A-5 report dated June 30, 2008. See Note 9.

TBN Securities, Inc. Schedule II - Computation for Determination of Reserve Requirements Pursuant to Rule 15c3-3 As of June 30, 2008

A computation of reserve requirements is not applicable to TBN Securities, Inc. as the Company qualifies for exemption under Rule 15c3-3 (k)(1).

TBN Securities, Inc. Schedule III - Information Relating to Possession or Control Requirements Under Rule 15c3-3 As of June 30, 2008

Information relating to possession or control requirements is not applicable to TBN Securities, Inc. as the Company qualifies for exemption under Rule 15c3-3 (k)(1).

TBN Securities, Inc.

Supplementary Accountant's Report

on Internal Accounting Control

Report Pursuant to 17a-5

For the Year Ended June 30, 2008

Board of Directors TBN Securities, Inc.:

In planning and performing our audit of the financial statements of TBN Securities, Inc. (the Company), as of and for the year ended June 30, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by rule 17a-13
- 2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

i

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at June 30, 2008, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
